Summary

Customer-facing engineer who maintains live websites and integrations, traces issues across the browser, APIs and hosting, and builds tools that make repeat problems easier to diagnose.

Skills

- HTTP, HTML, CSS, JavaScript and REST APIs
- Reverse proxies, DNS/TLS and Linux web hosting
- Browser and request troubleshooting; Bash and Node.js scripting
- TypeScript, React, Next.js and PostgreSQL

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

Present

- Own client web delivery and support, including application code, reverse-proxy routing, DNS/TLS and deployment checks.
- Troubleshoot client integrations across requests, logs, identity and application data; document changes and recovery steps.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Ran hosted web services in a PHP and JavaScript environment and handled production escalations through the NOC.
- Built reusable diagnostics and self-service tools for hosting and colocation customers.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Built a Node.js front-desk interface for routine Wi-Fi support and automated customer onboarding and provisioning.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Supported small-business endpoints and networks and developed repeatable troubleshooting steps for escalations.

Infrastructure and Systems Focal

IBM

2010 - 2012

• Built internal backup automation and wrote Perl, Bash, VBA and PHP scripts for infrastructure operations.

Selected Projects

Proofmark

Technomancy IT client

• Worked across the React interface, TypeScript APIs and database-backed document preparation, identity checks and signing workflows.

NuPrice

Long-term client product

• Built and ran a seller-facing SaaS product with marketplace data integrations, pricing rules and in-app support.

Education

Front Range Community College

Computer Science coursework

2011 - 2013
